Naval Surface Warfare Center Crane Division is the principal tenant command located at Naval Support Activity Crane. NSA Crane is a United States Navy installation located approximately 35 miles southwest of Bloomington, Indiana, and predominantly located in Martin County, but small parts also extend into Greene and Lawrence counties. It was originally established in 1941 under the Bureau of ...

The ISR capabilities of naval strike groups are provided by a host of naval, joint, and national sensor systems that can be space-based, airborne, on-the-surface, and subsurface platforms, and by a number of ground- and ship-based systems for the tasking of the sensors and exploitation of the sensor data.

The United States Naval Surface Warfare Center Dahlgren Division (NSWCDD), named for Rear Admiral John A. Dahlgren, is located in Dahlgren, Virginia, with a geographically separated command, Naval Surface Warfare Center Dahlgren Division Dam Neck Activity (NSWCDDDNA), located in Virginia Beach, VA, in close proximity to the largest fleet concentration area in the Navy.

The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.

At BAE Systems, we provide some of the world. At BAE Systems, we help our customers to stay a step ahead when protecting people and national security, critical infrastructure and vital information. This is a long-term commitment involving significant investments in skills. We also work closely with local partners to support economic development through the transfer of knowledge, skills and ...

The computer technology that allows us to develop three-dimensional virtual environments (VEs) consists of both hardware and software. The current popular, technical, and scientific interest in VEs is inspired, in large part, by the advent and availability of increasingly powerful and affordable visually oriented, interactive, graphical display systems and techniques.

Our story began with a pioneering vision to make the future of working underwater better than the past. This vision still guides our company today; a company that is 300 people strong in six regional locations, a company that puts everything it has into designing, building, testing, installing and supporting ground-breaking products and services; a business that takes ownership, does the right ...
