Linguistics is the scientific study of language. It encompasses the analysis of every aspect of language, as

well as the methods
for studying and
modelling them. The
traditional areas of
linguistic analysis
include phonetics,
phonology,
morphology, syntax,

semantics, and
pragmatics. Each of
these areas roughly
corresponds to
phenomena found in
human linguistic
systems: ...

According to the author, the world did not need another introductory text in mass communication. But the world did need another kind of introductory text in
