working with HIV-
positive women are ...

The HRET Toolkit .
The Health Research
and Educational Trust

(HRET), an affiliate of the American Hospital Association, offers providers a toolkit for the systematic collection of data used to assess healthcare disparities

([www.hretdisparities.org](http://www.hret disparities.org)). The toolkit is an excellent resource for organizations seeking to standardize and improve their data collection processes.

Documentation and Coding Practices for Risk Adjustment and Hierarchical Condition Categories. Risk adjustment is a statistical process that considers the

underlying health
status and health
spending of patients
when examining their
healthcare outcomes
or healthcare costs.

As Michelle

Dougherty, MA,
RHIA, CHP, noted in
her testimony to the
Office of the National
Coordinator for Health
IT's (ONC) HIT
Policy Committee, "If
clinical documentation

was inaccurate when used for billing or legal purposes, it was wrong when it was used by another provider, another provider at transition, a researcher, the

public health
authority, or quality
reporting agency.” 5 ...

In designing the study questions and methodology at the outset of this report, the ESP consulted several technical and content experts. Broad expertise and

perspectives were sought. Divergent and conflicting opinions are common and perceived as healthy scientific discourse that results in a thoughtful, relevant

systematic review.

One such building block is an ICD-10-CM/PCS coding productivity study examining average inpatient coding times.

1 7 Using more than 150,000 medical records from health facilities that were primarily large, the study took into account all discharges in a five-month period

beginning October
2015. 18 Average
inpatient coding time
across DRG, principal
diagnosis, and length
of stay, as well as ...

Hall JL, McGraw D.

Architecture

9/2/2011 · In this
article Steven J.
Steindel, PhD,

FACMI, offers an overview of the elements that make ICD-10-PCS so different from its ICD-9 predecessor. Once coders crest the PCS learning

curve—including a new approach to code development and new concepts for coding anatomy and physiology—most will find the new code set adds clarity with little

or no loss in
efficiency, he writes.
